May 2006

Dear Readers:

Thank you for your interest and concern regarding child abuse and neglect in Missouri. As we have provided in the past, this report illustrates all children reported, identified as well as served as a result of abuse and neglect reports or referrals, addressed by the Missouri Children's Division, formally known as Division of Family Services (DFS). This report includes such reports and referrals received during Calendar Year 2005. The report also includes a description of Missouri's unique, multiple-response system to responding to child abuse and neglect reports. For over ten years, the Children's Division has worked to enhance our family-centered, community-based practice through the use of family assessments.

This report illustrates a continued need for strong community support for children and families. The Children's Division is devoted to ensuring the safety of children and, whenever possible, preserving families. Through ongoing support of committed citizens, such as yourself, as well as community partnerships, we believe that our shared desires for the improvement and support of Missouri's children and families will be realized.

Sincerely,

Paula Neese Interim Director

PN/KS/cb

Child Abuse and Neglect in Missouri

Report for Calendar Year 2005

Missouri Department of Social Services 221 West High Street P.O. Box 1527 Jefferson City, Missouri 65102-1527

Department of Social Services Mission Statement

To maintain or improve the quality of life for the people of the state of Missouri by providing the best possible services to the public, with respect, responsiveness and accountability, which will enable individuals and families to better fulfill their potential.

Prevention • Partnership • Protection

Working with you in protecting Missouri's children.

Our Vision:

Safety, health and well being for every Missouri child!

Our Mission:

To partner with families, communities and government to protect children from abuse and neglect and assure safety, permanency and well being for Missouri's children.

Our Guiding Principles:

PROTECTION – Children have a right to be safe and live free from abuse and neglect.

PERMANENCY - Children are entitled to enduring, nurturing relationships that provide a sense of family, stability and belonging.

PARTNERSHIP - Families, communities and government share the responsibility to create safe, nurturing environments for families to raise their children - only through working together can better outcomes be achieved.

PRACTICE - The family is the basic building block of society and is irreplaceable. Building on their strengths, families are empowered to identify and access services that support, preserve and strengthen their functioning.

PREVENTION - Families are supported through proactive, intentional activities that promote positive child development and prevent abuse and neglect.

PROFESSIONALISM – Staff are valued, respected and supported throughout their career and in turn provide excellent service that values, respects and supports families.

Introduction

This report compiles data collected by the Missouri Department of Social Services (DSS), Children's Division (CD) in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments. DSS installed a new data storage system in mid-2005 causing the data for this report to be collected earlier than in previous report years. The data is current as of March 2006. As a result of pending investigations or changes in conclusions, the data is prone to change.

Reports to the Child Abuse/Neglect Hotline

Over the past year, the Child Abuse/Neglect Hotline Unit (CANHU) received 54,108 reports of child abuse/neglect, involving 80,577 children. The CANHU is operated year-round on a 24 hours per day, seven days per week basis by 52 trained and experienced Children's Services workers. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child; and
- the report meets the legal definition of abuse and/or neglect as stipulated in 210.110, RSMo (see definitions on page 2).

Within moments of receiving a report, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for investigation/assessment. Investigations/assessments must be initiated within 24 hours or immediately when it is determined that the child is in imminent danger. Exceptions are when the only allegation is educational neglect or the allegation is an old allegation and the child is protected. In this case, an investigation/assessment must be initiated within 72 hours. Social workers have 30 days to complete their investigations/assessments.

A call to the hotline is referred to as a report or reported incident of child abuse/neglect. A report may involve from one to several children. Compared to 2004, the number of reports decreased slightly in 2005.

Incidents and Children Reported to the Child Abuse/Neglect Hotline and Annual Percent Change, 2001-2005

	Total	Annual	Total	Annual
Year	Reports	Change	Children	Change
2001	57,719		89,157	
2002	54,958	-4.8%	83,429	-6.4%
2003	56,911	3.6%	85,948	3.0%
2004	56,111	-1.4%	84,590	-1.6%
2005	54,108	-3.6%	80,577	-4.7%

Note: All counts of children are duplicated because a child may be reported more than once during the year.

Introduction

Definitions

Legal:

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control except that discipline including spanking, administered in a reasonable manner shall not be construed to be abuse; and

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being.

Care, custody and control of the child, includes but is not limited to the parents or guardian of a child, other members of the child's household, or those exercising supervision over a child for any part of a twenty-four hour day. Those responsible for the care, custody and control shall also include any adult, who, based on their relationship to the parents of the child, members of the child's household or the family, has access to the child.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services is an approach which provides for a prompt assessment of a child and their family when the child has been reported to the CD as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

Operational:

At the end of each child abuse/neglect investigation/assessment, the Children's Services Worker reaches a conclusion. The following are operational definitions for investigative conclusions:

Substantiated: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Services worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts and those with preponderance of evidence.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/ or credible evidence exist, but where the Children's Services Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the social worker has not identified a specific threat exists for the child.

The following are definitions for Family Assessment conclusions:

Services Needed: The family has an identified need for services. CD will continue to work with the family after the assessment is completed and will continue providing services for some period of time.

Services Needed-Linked Initial 30 Days: The family has an identified need for community services. The identified services were linked with the family during the 30-day family assessment process. CD will not continue working with the family when the family assessment process is completed. The Children's Services Worker should contact referral providers to verify that the family is receiving services.

Introduction

Services Needed-Family Declined: The Children's Services Worker has identified a service that may be beneficial to the family; however, the family declined to receive the services. The child's safety has been assessed, and there is no evidence that warrants court intervention.

Services Not Needed: The family does not have an identified need for additional services. Families may be receiving services prior to the date of the hotline. Services Not Needed is used only when the family does not have additional service needs.

Non-cooperative/Child Safe: Enough information has been obtained to ensure that the child is safe; however, the family refuses to participate in the family assessment process and the allegations do not warrant a co-investigation with law enforcement or court involvement.

For a small number of reports, the above definitions are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate**, **Inappropriate Report**, **Located Out of State**, **Home Schooling**, and **School Investigation by School Board** (**Substantiated**, **Unsubstantiated**, **Unresolved**).

Methodological:

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator. The terms "report," "incident" and "reported incident" are used interchangeably throughout this report.

Incident conclusion: The Children's Services Worker assigns a conclusion for each child and for each alleged perpetrator involved in an incident. If at least one child is substantiated, the incident is considered to be substantiated.

Incident category of abuse/neglect: Up to fifty findings of abuse/neglect can be assigned to each substantiated child. Each incident may have up to six categories of abuse/neglect because each child may be substantiated for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was substantiated for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Services Worker assigns a conclusion for each child involved in an incident. For example, some children in the report may be substantiated while others may be unsubstantiated.

Child category of abuse/neglect: Each substantiated child may be assigned up to six categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year. Unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Services Worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be substantiated while another may be unsubstantiated.

Child Abuse/Neglect Investigations/Family Assessments

Children's Services workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the major steps listed below:

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the alleged report, if true, would constitute a violation of the law;
- Making a determination regarding the safety of the children within 24 hours, or immediately, if deemed as an emergency;
- Contacting the School District Liaison when the victim in the child abuse/neglect report is school-aged;
- Determining the safety of all other children in the household within 72 hours;
- Consulting with the Chief Investigator within 72 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring;
- Evaluating the family's need for services and making appropriate referrals for needed services; and
- Notifying the child's parent(s), alleged perpetrator, School District Liaison and if applicable, the Mandated reporter of the report conclusion and related findings.

CD policy requires completion of investigations/assessments within 30 days. When the Children's Services Worker determines that there is reasonable cause to believe that abuse/neglect has occurred, or is occurring, the family is advised of available services. The family also is offered services when the investigative conclusion is Unsubstantiated-Preventive Services Indicated or when a Family Assessment indicates the need for services.

Reported Incidents and Children by FA Conclusion, 2001-2005

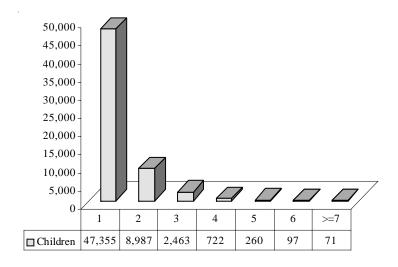

2005 Child Abuse/Neglect Reports and Children by Month of Report

• During 2005, the month with the most reports was April with 5,073 reports (7,153 children). December had the fewest number of reports and children with 3,828 and 5,664, respectively.

2005 Child Abuse/Neglect Children by Number of Incidents Reported in the Same Year

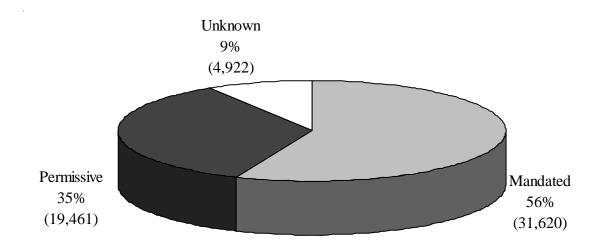

In 2005, a duplicated number of 80,577 children were reported. Unduplicated this number reduces to 59,955 children. Of those children, 47,355 had one report during the year. The remaining 12,600 children had more than one report during 2005.

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused. Mandated reporters include health and education professionals, social workers and foster parents, among others. Permissive reporters are those people not required to report suspected abuse/neglect, such as relatives or neighbors. Effective August 28, 2002, the individuals required to report incidents of suspected child abuse/neglect increased to include "ministers". Minister is defined as "any person while practicing as a minister of true gospel, clergymen, priest, rabbi, or other person serving in a similar capacity for any religious organization who is responsible for or has supervisory over one who is responsible for the care, custody, and control of a child or has access to a child", section 352.400, RSMo.

• Fifty-six percent (56%) of the reports made in 2005 were made by mandated reporters and twenty-nine percent (29%) were made by permissive reporters.

Child Abuse/Neglect Reporters by Type of Reporter, 2005

RSMo 210.115. Reports of abuse or neglect, who shall make. — When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel (engaged in examination, care, treatment, or research of persons), and other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, jail or detention personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, he shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183.

• The most common mandated reporter occupation was social worker, followed by law enforcement officers and school officials.

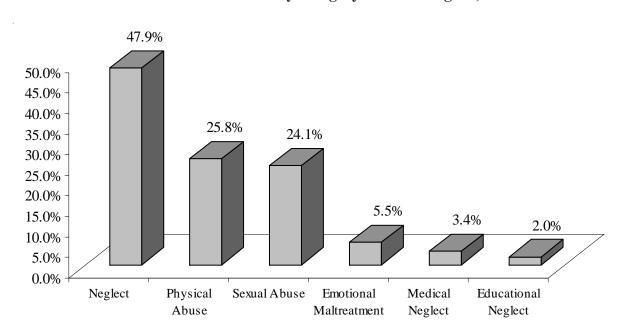

Reporters of Child Abuse/Neglect by Occupation, 2005

	Number	Percent
Permissive	19,461	34.7%
Social worker	6,880	12.3%
Peace officer or law enforcement official	6,379	11.4%
Principal or other school official	6,309	11.3%
Unknown	4,922	8.8%
Mental health professional	3,362	6.0%
Nurse	2,624	4.7%
Other person with responsibility for care of children	1,667	3.0%
Teacher	947	1.7%
Juvenile officer	888	1.6%
Physician	803	1.4%
Day care center or other child care worker	628	1.1%
Psychologist	320	0.6%
Foster parents	201	0.4%
Other hospital/clinic personnel	178	0.3%
Other health practitioner	145	0.3%
Probation or parole officer	128	0.2%
Medical examiner	53	0.1%
Jail or detention personnel	29	0.1%
Minister	26	0.0%
Intern	25	0.0%
Coroner	15	0.0%
Dentist/Dental hygienist	10	0.0%
Resident	2	0.0%
Optometrist	1	0.0%
Chiropractor	0	0.0%

Note: Reporters exceed reports because more than one person may report an incident.

During the year, 8,158 children were involved in incidents that were substantiated for abuse or neglect. When a Children's Services Worker determines there is reasonable cause that abuse/neglect has occurred, each child can be assigned up to six categories of abuse/neglect. As the graph below indicates, the most prevalent category is neglect, followed by physical abuse and sexual abuse.

Substantiated Children by Category of Abuse/Neglect, 2005

Substantiated Children by Category of Abuse/Neglect, 2005

	Number	Percent
Neglect	3,906	47.9%
Physical Abuse	2,108	25.8%
Sexual Abuse	1,969	24.1%
Emotional Maltreatment	452	5.5%
Medical Neglect	274	3.4%
Educational Neglect	160	2.0%

Percent is the percentage of total substantiated children. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Services Workers may designate up to four **Observed Family Characteristics** for each reported incident. For families where abuse/neglect is found, these characteristics may indicate which services could help prevent the reoccurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

• The family characteristics reported in 2005 are similar to those reported during the last five years. Thirty-seven percent (37%) of the families involved in substantiated incidents were single parent households. Thirty-four percent (34%) of the substantiated incidents involved families that were amenable to services. The top twenty family characteristics are listed below.

Characteristics of Families Involved in Substantiated Incidents, 2005

	Number	Percent
Single parent household	2,146	36.9%
Amenable to services	1,973	33.9%
Adequate living conditions	1,861	32.0%
Lack of parenting skills	1,436	24.7%
Stable family relationship/household	869	15.0%
Extended family support system	808	13.9%
Appropriate parenting skills	740	12.7%
Heavy continuous child care responsibility	726	12.5%
Other drug related problem(s)	506	8.7%
Marital Problems	410	7.1%
Domestic Violence	390	6.7%
Insufficient/misuse of income	325	5.6%
Recent/frequent relocation	310	5.3%
Recent loss/addition to household members	303	5.2%
New baby in home/pregnancy	296	5.1%
Community/cultural support	288	5.0%
Alcohol related problem(s)	279	4.8%
Loss of employment	217	3.7%
Crowded Living Conditions	202	3.5%
Dangerous living conditions	179	3.1%

Percent is the percentage of total substantiated incidents. Percent total is greater than 100 because up to four family characteristics may be reported for each incident.

- In 2005, forty-three percent (43%) of the substantiated children were male, and fifty-seven percent (57%) were female. Unlike neglected and physically abused children, where approximately half were male and half were female, the majority of sexually abused children were female.
- Approximately three-fourths of the substantiated children were white and one-fifth were black. The majority of neglected, physically abused, and sexually abused victims were white followed by black victims.

• Most substantiated incidents were reported in August with 804 children. The lowest number of substantiated incidents (464) were reported in December. The highest incidence of neglect, physical abuse, and sexual abuse occurred in August (398), March (211), and January (207) children, respectively. The lowest occurrences of neglect, physical abuse, and sexual abuse were in December with 210, 136, and 112, respectively.

In addition to assigning categories of abuse or neglect, a Children's Services Worker may also describe up to fifty specific findings of abuse. For neglected children the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsanitary living conditions. The ten most frequently reported worker findings for neglected children are listed below.

Worker Findings for Neglected Children, 2005

	Number	Percent
Lack of supervision	2,200	56.3%
Unsanitary living conditions	1,028	26.3%
Unsafe/inadequate shelter	1,027	26.3%
Failure to protect	576	14.7%
Lack of food	231	5.9%
Bruises, welts, red marks	224	5.7%
Poor hygiene (health threatening)	222	5.7%
Fondling/touching	179	4.6%
Abandonment	162	4.1%
Locking in or out, expelling from home	132	3.4%

Percent is the percentage of total neglected children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks and other physical abuse or injury. Lack of supervision is also cited quite frequently, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are listed below.

Worker Findings for Physically Abused Children, 2005

	Number	Percent
Bruises, welts, red marks	1,219	57.8%
Other physical abuse or injury	569	27.0%
Abrasions, lacerations	263	12.5%
Lack of supervision	251	11.9%
Inappropriately giving drugs	179	8.5%
Failure to protect	177	8.4%
Blaming, verbal abuse, threatening	128	6.1%
Wounds, cuts, punctures	124	5.9%
Fractures (other than skull)	83	3.9%
Unsanitary living conditions	75	3.6%

Percent is the percentage of all physically abused children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

For sexually abused children, the most frequently reported worker finding was fondling or touching. As with the physically abused children, lack of supervision is also cited. This suggests that neglect may also occur in some situations of sexual abuse. The ten most often reported worker findings for sexually abused children are listed below.

Worker Findings for Sexually Abused Children, 2005

	Number	Percent
Fondling/touching	1,377	69.9%
Other sexual abuse	532	27.0%
Oral sex, sodomy	507	25.7%
Intercourse	425	21.6%
Digital penetration	337	17.1%
Lack of supervision	150	7.6%
Failure to protect	135	6.9%
Pornography	78	4.0%
Inappropriately giving drugs	39	2.0%
Other physical abuse or injury	26	1.3%

Percent is the percentage of all sexually abused children. Percent total is greater than 100 because a worker may list up to fifty specific findings for each child.

Child Abuse/Neglect Fatalities

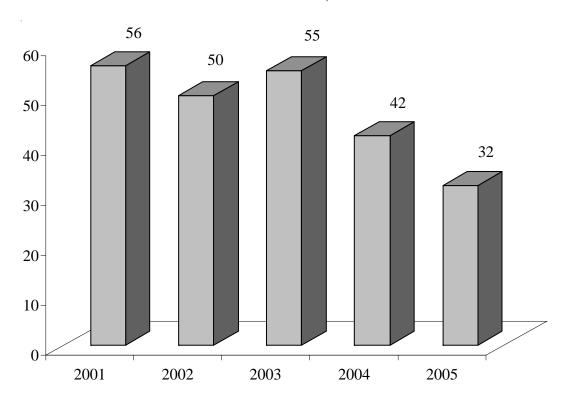

The number of substantiated fatalities in 2005 decreased compared to 2004. Thirty-two children died as a result of child abuse/neglect in 2005, compared to fourty-two in 2004.

These figures only represent children whose deaths are brought to the attention of CD. Recent media attention, both on a state and national level, has focused on children whose deaths were never brought to the attention of the proper authorities despite the suspicious nature of their deaths. When fatal child abuse goes undetected, other children in the home and community remain at risk.

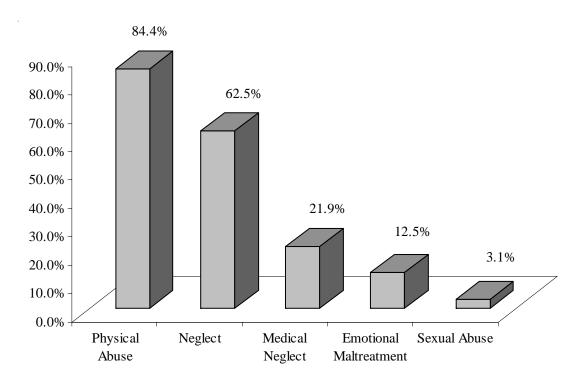

Effective August 28, 2000, if the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner, or physician shall notify the division of the child's death. In all other cases, the medical examiner or coroner shall accept the report for investigation, shall immediately notify the division of the child's death as required under section 58.452, RSMo, and shall report the findings to the child fatality review panel established pursuant to section 210.192, RSMo.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions, and deaths not reported in a timely manner.

Substantiated Fatalities, 2001 - 2005

Substantiated Fatalities by Category of Abuse/Neglect, 2005

• A majority, eighty-four percent (84%), of the CA/N fatalities were caused, at least in part, by physical abuse. Neglect was present in sixty-three percent (63%) of the CA/N fatalities. Medical neglect, emotional maltreatment, and sexual abuse also contributed to some child fatalities.

Substantiated Fatalities by Category of Abuse/Neglect, 2005

	Number	Percent
Physical Abuse	27	84.4%
Neglect	20	62.5%
Medical Neglect	7	21.9%
Emotional Maltreatment	4	12.5%
Sexual Abuse	1	3.1%

Percent is the percentage of total substantiated fatalities. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Of the 32 children involved in substantiated fatalities in 2005, the majority were under five years of age. Fifty percent (50%) of the children were male and fifty percent (50%) were female. Seventy-eight percent (78%) of the children were white and twenty-two (22%) were black.

Substantiated Fatalities by Month of Death, 2005

• The highest incidence of child deaths (6) occurred in June. There were no fatalities in July, August, and September.

Total	7,169	100.0%

- The majority (64%) of all perpetrators were between 20 and 39 years of age. Fifty-five percent (55%) were male and forty-three (43%) were female. The race of substantiated perpetrators is similar to that of substantiated children. Seventy-five percent (75%) were white and eighteen percent (18%) were black.
- The most common type of alleged perpetrator was the natural parent of the child.

Alleged Perpetrators and Substantiated Perpetrators by Relationship to Child, 2005

	Alleged	Substantiated	Percent Found
	Perpetrators	Perpetrators	Substantiated

Note: A perpetrator may be involved in more than one incident during the report year.

Perpetrator Information

Children's Services Workers may indicate up to four **Observed Perpetrator Characteristics** for each substantiated perpetrator of child abuse/neglect. These characteristics are used to assist in determining which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

• In 2005, the most prevalent perpetrator characteristic was having unrealistic expectations of a child, which was the case for approximately thirty-one percent (31%) of the substantiated perpetrators. Social workers described nineteen percent (19%) of the perpetrators as having drug related problems besides alcohol.

Characteristics of Substantiated Perpetrators, 2005

	Number	Percent
Unrealistic expectations of child	2,249	31.4%
Other drug-related problem(s)	1,374	19.2%
Unemployed	1,299	18.1%
Loss of control during discipline	1,101	15.4%
No apparent mental/emotional disturbance	994	13.9%
Immaturity	986	13.8%
Mental/emotional disturbance	820	11.4%
History of criminal activity	742	10.4%
Amenable to services	718	10.0%
Adequate support system	717	10.0%
Low self-esteem	626	8.7%
Alcohol-related problem(s)	578	8.1%
Pattern of violent behavior	434	6.1%
No one to call on in time of crisis	385	5.4%
Parental history of abuse/neglect as a child	357	5.0%
Less than high school education	220	3.1%
High school education or higher	166	2.3%
Institutional report/unknown perpetrator	128	1.8%
Mental retardation	50	0.7%
Illness	44	0.6%
Incapacity due to physical handicap	37	0.5%

Percent is the percentage of total substantiated perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

Missouri's Child Protection Services system culminated from a collaborative effort between the Children's Division (CD), elective officials, community organizations and private citizens. Senate Bill 595 (SB 595) was signed into law in 1994 and expanded statewide in 1998. The primary focus of SB 595 is to protect children from abuse/neglect in the least disruptive and intrusive way, that recognizes the value of the family. In addition, the protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

The definition of child abuse/neglect and the criteria for reporting (including mandated reporting) remain the same. The most significant change to the Child Protection Services system is how the division responds to reports of child abuse or neglect. When a local county office receives a report, the report is screened to determine the appropriate intervention method. If the report indicates behaviors that constitute criminal violation, the response to the report is an evidentiary, fact-finding Investigation. It is CD policy to notify the appropriate local law enforcement agency to assist in the Investigation.

Reports of child abuse or neglect that do not fall into the category of criminal violation may be responded to by conducting a Family Assessment. The main purpose of a Family Assessment is to determine the child's safety and the family's needs for services. Taking a non-punitive assessment approach has created an environment that assists the family and social worker in developing a rapport and building on existing strengths to create a mutually agreed upon plan. The attention is centered on long term effects of the intervention (success = independence) versus an individual incident (failure = dependence).

In 1994, the Missouri General Assembly mandated a two-year independent evaluation of the Family Assessment approach to addressing child abuse/neglect (CA/N). The evaluation completed in June 1997 concluded that the safety of children was improved, CA/N reports decreased, families received services more quickly, families were more cooperative, and community resource utilization increased. Additionally, the community joined together in coordinating available resources to assist children and families in need. These communities have continued to meet today's challenges by working to develop resources to better address needs.

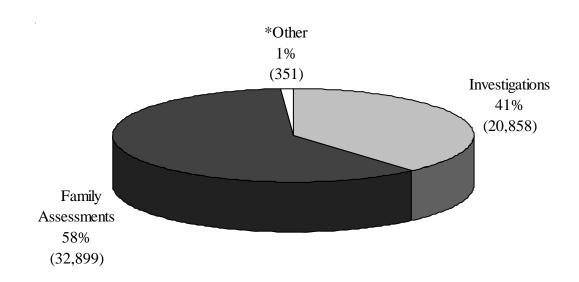

In 2002, a follow-up independent evaluation conducted by the Institute of Applied Research began. Results are available on their website at www.iarsl.org.

An investigative delivery approach is designed to focus the efforts of CD and law enforcement on reports that indicate a crime had been committed. The remaining families are served through Family Assessments, in order to address any service needs. Families who are investigated and those who receive the Family Assessment response both receive prompt and effective delivery of services in order to address their needs.

Track assignments determine which approach, assessment or investigation, the Children's Services worker will take in response to a child abuse/neglect report. Reports that initially receive a track assignment of assessment may not, however, be concluded assessment (i.e., services needed, services not needed, or non-cooperative/child safe). Assessment tracks not concluded as such may have conclusions of unable to locate, located out of state, or home schooling. Therefore, the statistics on pages 21, 22, and 24 are not based on 31,099, the number of reports concluded assessment, but on the number of reports assigned to the Family Assessment approach. The number of reports during 2005 assigned to the Family Assessment approach equaled 32,899.

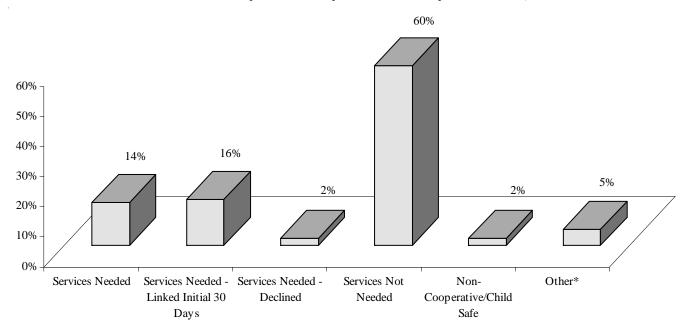

The Family Assessment approach began in selected counties in 1995. By June 1999, all counties had implemented the Family Assessment approach.

Reports by Type of Response During 2005

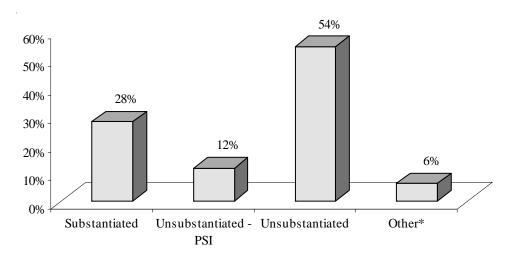

^{*} Includes incidents with the conclusion of Inappropriate Report and incidents in which the conclusions are pending and the final response assignment could not be determined.

Child Protection System Family Assessments by Conclusion, 2005

- Of the 32,899 reports assigned to the Family Assessment approach, fourteen percent (14%) of the families were in need of services, sixty percent (60%) did not need services, and only two percent (2%) were non-cooperative. Sixteen percent (16%) of the families were in need of services and linked in the initial 30 days. Two percent (2%) were in need of services but declined receiving any service.
- Of the 20,858 reports assigned to the investigative track, twenty-eight percent (28%) were substantiated.

Child Protection System Investigations by Conclusion, 2005

^{*} Other includes Unable to Locate, Inappropriate Report, Located Out of State, and Home Schooling (based on response assignment).

Total	47,379	100.0%	7,517	100.0%	7,483	100.0%	1,231	100.0%

- During the year 47,379 children were involved in reports screened Family Assessment. Fifty-one percent (51%) of the family assessment children were male and forty-nine percent (49%) were female. Eighty percent (80%) of the children were white and eighteen percent (18%) were black.
- Of the Family Assessment children 7,517 children had a conclusion of services needed, 7,483 a conclusion of services needed-linked in the initial 30 days, and 1,231 a conclusion of services needed but the family declined services. The majority of the children that needed services were white followed by black children. Approximately half of the children that needed services were male and half were female.

The goals of the Family Assessment approach are to assure child safety, address the strengths of the family and to identify and treat the family's needs. Services and supports for families are designed to build on the strengths and resources of families and communities. In keeping with this philosophy, the list of **Observed Family Characteristics** was expanded to include more strength-based characteristics. Some of the new characteristics are extended family support systems, problem-solving skills and good physical/mental health.

• In forty-eight percent (48%) of the assessments, the families had adequate living conditions. Thirty-four percent (34%) of the assessments involved families that were amenable to services. Other frequently cited characteristics include single parent household, stable family relationship, appropriate parenting skills and extended family support system. The top 25 characteristics are listed below.

Child Protection System Family Assessment Approach Characteristics of Families Involved in Family Assessments During 2005

	Number	Percent
Adequate living conditions	15,880	48.3%
Amenable to services	11,116	33.8%
Single parent household	10,465	31.8%
Stable family relationship/household	7,652	23.3%
Appropriate parenting skills	6,576	20.0%
Extended family support system	4,153	12.6%
Lack of parenting skills	2,449	7.4%
Community/cultural support	1,800	5.5%
Heavy continuous child care responsibility	1,718	5.2%
Insufficient/misuse of income	1,376	4.2%
Recent/frequent relocation	1,335	4.1%
Recent loss/addition to household members	1,327	4.0%
Marital problems	1,103	3.4%
Crowded living conditions	1,102	3.3%
Domestic violence	1,034	3.1%
New baby in home/pregnancy	1,005	3.1%
Problem-solving skills	910	2.8%
Loss of employment	889	2.7%
Other drug related problem(s)	887	2.7%
Alcohol related problem(s)	496	1.5%
No history of violence	471	1.4%
Stable marriage	399	1.2%
Teen parent(s)	385	1.2%
Social isolation	306	0.9%
Illness	306	0.9%

Percent is the percentage of total reports assigned to the Family Assessment approach. Percent total is greater than 100 because up to 15 family characteristics may be reported for each Family Assessment.

- The characteristics for families involved in investigations are similar in rank to those of families in the assessment response. In fourty-six percent (46%) of the investigations, the families had adequate living conditions. Amenable to services, single parent household, stable family relationships, and appropriate parenting skills were also cited frequently.
- Investigations had about the same percentage (33%) of families amenable to services as did assessments (34%). Investigated families had a slightly lower percentage (46%) of families with adequate living conditions than did assessment families (48%). The top 25 characteristics are listed below.

Child Protection System: Family Assessment Approach Characteristics of Families Involved in Investigations During 2005

	Number	Percent
Adequate living conditions	9,510	45.6%
Amenable to services	6,944	33.3%
Single parent household	5,705	27.4%
Stable family relationship/household	4,046	19.4%
Appropriate parenting skills	3,682	17.7%
Extended family support system	2,491	11.9%
Lack of parenting skills	2,331	11.2%
Heavy continuous child care responsibility	1,129	5.4%
Other drug related problem(s)	1,105	5.3%
Community/cultural support	977	4.7%

Stable marriage	242	1.2%
Dangerous living conditions	222	1.1%
Teen parent(s)	219	1.0%
Illness	202	1.0%

Percent is the percentage of total reports assigned to the investigative approach. Percent total is greater than 100 because up to 15 family characteristics may be reported for each investigation.

CD has several programs designed to provide treatment and to help prevent future occurrence of child abuse and neglect.

Family-Centered Services (FCS): FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Substantiated, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of CD. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services include a range of treatment and support services. The family treatment plan determines whether services are provided by CD staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based, family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

- During 2005, there were 9,702 FCS cases opened in Missouri.
- In 2005, twenty-four percent (24%) of all FCS case openings were the result of a Family Assessment.

Intensive In-Home Services (IIS): IIS are intensive in-home services designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement: Out-of-home care is provided in situations where a parent or parents are incapable

of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Crisis Nurseries: The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board: Children's Services Workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is substantiated, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local CD office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of three boards of nine private citizens appointed by the Governor. These boards each meet monthly to review child abuse/neglect appeals. They listen to testimony from CD staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original CD decision. During 2005, the review board heard 237 cases. The percentage of cases upheld by the Board was 54.0%.

Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator will have 30 days to request a judicial review.

Background Screening and Investigation Unit: The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in CD. These checks are run on prospective foster and adoptive parents for CD and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. During 2005, the unit processed 131,485 background checks.

Mandated Reporter Referrals: The state child abuse/neglect law mandates certain professions (mandated reporters) to make a report to the Missouri Children's Division when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family.

Effective July 1996 the division implemented a policy to accept referrals of concern from a mandated reporter which does not rise to the level of a CA/N report. The division refers to these calls as Mandated Reporter Referrals. This service is being provided because division staff are often aware of community resources available to families and to continue the positive communication between CD staff and mandated reporters. The reporter will be told by the hotline social worker whether their call is being accepted as a hotline report or as a Mandated Reporter Referral. Mandated Reporter Referrals will be reported immediately to the appropriate county CD Office.

Local CD staff will contact the reporter within three working days of the report, or the next working day if the report is received over the weekend or a holiday period, to discuss the situation with the mandated reporter and mutually determine the most appropriate action to be taken. The exception is if the report indicates an emergency situation the reporter will be contacted as soon as possible. While the division in a few situations may offer services to families, the primary purpose is to help the mandated reporter make community support connections for the family. The following are possible responses to the referrals:

- The mandated reporter is made aware of appropriate community resources and provides referrals for the family.
- The reporter or CD staff contact the family by telephone to assist the family in arranging appropriate referrals.
- CD staff visit the family to obtain additional information and assess the needs of the family.
- CD staff determine that, based upon additional information, a child abuse/neglect report is necessary.
- During 2005, there were 16,994 Mandated Reporter Referrals.

Newborn Crisis Assessments and Services: CD collaborates with the Department of Health in conjunction with Department of Mental Health and Department of Elementary and Secondary Education to address the increasing problem of substance abusing pregnant women and drug exposed infants. Missouri law requires the Departments of Health, Mental Health, Elementary and Secondary Education, and Social Services (CD) to provide a non-punitive system of educational and treatment services related to the prenatal consumption of alcohol and other drugs. This interdepartmental effort is known as the Perinatal Substance Abuse Advisory Council. This council meets quarterly to discuss issues related to the needs of the drug-exposed infant, substance abusing pregnant women, assessment process, training, accessing available resources, legislative and policy changes.

Between November 1999 and May 2000, Department of Health, Bureau of Family Health and Special Health Care Needs teamed up with CD to create and present the law and policy implementation of Newborn Crisis Assessment Referrals across the state. The material was presented in ten locales across Missouri, to approximately 765 persons. The participants included the following professionals: CD staff, Nurses, Physicians, Social Workers, Police Officers, Juvenile Officers, Lawyers, Foster Parents, Department of Health Administrators and staff, and the Department of Mental Health Administrators and staff.

In most instances, CD receives a Newborn Crisis Assessment Referral, via the CA/N hotline, from the physician or health care provider, who requests CD to conduct an assessment to determine the caretaker's suitability to care for an infant, or to provide protective services as directed by a physician. Following the completion of the Newborn Crisis Assessment, CD coordinates services with the Department of Health and Department of Mental Health. Service Coordinators in the Department of Health's Bureau of Special Health Care Needs will provide health and developmental screenings throughout their involvement with the family. Department of Mental Health provides drug treatment services for the substance abusing parent, as well as the family. In 2005, the Division received 2,441 reports from medical professionals for drug-exposed infants and subsequent assessment for services by CD.

Children reported to the Division for abuse and neglect are sometimes identified during the investigation process as having been exposed prenatally to drugs. In 2005, 69 children reported to the hotline for abuse and neglect were identified as drug exposed.
